Dear Senator Manchin,

I support a National Park in the northern portion of the Monongahela National Forest. A new National Park will help grow the economy, and protect the special natural areas of the West Virginia Highlands. West Virginia needs High Allegheny National Park! To begin this process, I ask you to please introduce and work to pass a National Park Study Bill in this session of Congress.

Thanks for protecting the unique heritage and ecology of our High Allegheny Mountains!

Sincerely,
